Cars Makes Presentation at

Luncheon.

Mr. Briscoe in responding declared that his company is proud of its achievement at the friday), at St. Nicholas vichairman of the Executive Committee of 18th (Thursday).

One of the most interesting exhibits is that of the Pic-Pic car, whose space is in the Rose room. The leading car shown by this company presents a novelty of design in both body and chassis that has attracted much attention. The Di Dion, the Minerva, the Renault and the Benz exhibits are also drawing many persons.

One of the most interesting exhibits, aside from the Fiat racing car in which David L. Bruce, Brown won the last Grand Prize race, is the first Benz car ever manufactured. This car, with its small solid tires and its antique body, was brought over from Germany especially for exhibition at the Salon. It was run from the steamship pier to the salesrooms of the Benz company under its own power. One of the most interesting exhibits is Benz company under its own power.
Features which are interesting the spectators particularly are the rotary valve motor, wiree wheels, worm drive and the working section of the Knight sleeve valve

Coach-Limousine at Simplex Exhibit

DROMINENT in our exhibit at Madison Square Garden, during the week beginning January 6th, will be a special touring limousine, mounted on one of our new style 139-inch wheelbase 50 H. P. Simplex chassis. This body is of our Coach-Limousine style, with the same luxurious interior and appointments. The car is designed for the double purpose of town use and for extended touring both at home and abroad. Comfort to passengers is the ruling feature in its design. The extra chairs, which are usually firing even on short trips, are given a natural spring, so that no jolt caused by uneven road surfaces is communicated to the occupants. The color scheme is deep Cobalt Blue, with black upper body and fenders, and fine line carmine striping. The upholstery is from Boyriven Fils et Cret, Paris, and is one of the most attractive designs we have received thus far.
